Professional Summary

Proactive and detail-oriented Business Analytics professional with over 5 years of experience across operational reporting, data manipulation, and cross-functional problem-solving. Completed an MBA and advanced Post-Graduate degrees specializing in Data Science and Business Analytics. Expert at writing targeted SQL commands, building dashboards across BI tools (Power BI, Tableau), and manipulating large datasets inside advanced Excel models. Proven track record executing funnel optimizations, discovering underlying performance patterns, and managing multiple high-priority tasks in fast-paced international remote setups. Fluent in English with an active trajectory to professional German.

Core Skills

- **Business Analytics & Strategy:** Pattern Identification, Sales Funnel Evaluation, Trend Mapping, Operational Excellence, Process Improvement, Performance Gaps Discovery
- **Advanced Data Handling:** Advanced Excel (Complex Analytics, Pivot Tables, Formulas), Large Datasets Formatting, Data Cleansing & Preparation
- **BI Tools & Querying:** SQL Scripting, Power BI Dashboarding, Tableau Visualization
- **Execution & Workstyle:** Structured Detail-Oriented Execution, Fast-Paced Multitasking, Independent Problem Solving, Management Updates, Proactive Research Mindset
- **Languages:** English (C1), German (Active Upskilling, Target B1 by December 2026)

Professional Experience

IQVIA

Bengaluru, India

Analyst – US Digital Enablement (Business Intelligence & Analytics)

11/2022 – 06/2026

- Maintained and continuously improved complex recurring reports, delivering structured daily and weekly updates regarding key corporate metrics to management.
- Conducted advanced data analyses over large datasets via SQL Server and Excel, isolating conversion patterns and funnel performance gaps across 15 target client environments.
- Leveraged data-driven insights proactively to optimize internal tracking workflows, cutting processing bottlenecks and enhancing team operational excellence.
- Engineered clear, user-friendly reports and dashboard ecosystems in Power BI, empowering stakeholders to understand raw statistics and navigate tools independently.
- Managed multiple analytical tasks concurrently within a fast-paced environment, resolving cross-department data issues through reliable root-cause investigation.

NIELSEN IQ

Vadodara, India

Data Processing Specialist – Input Validation & Trend Analysis

01/2021 – 10/2022

- Supervised large-scale retail ingestion workflows, managing data validation checks and information mapping parameters for 15 market outlets.
- Extracted and analyzed consumer market datasets using advanced Excel features, identifying structural sales trends, data anomalies, and performance insights.
- Supported business units with ad-hoc reporting requests, preparing raw file sets and validating transaction records to guarantee maximum numbers consistency.
- Collaborated confidently across international, interdisciplinary project interfaces, translating complex technical dataset findings into practical commercial summaries.

CONNEXT BUSINESS SOLUTIONS

Analyst Internship (Python Scripting & Process Automation)

Remote, India
02/2020 – 06/2020

- Developed an end-to-end Python file automation engine to clean unstructured data and expedite data preparation steps for predictive projects.
- Utilized Pandas and NumPy dataframes to execute exploratory data analysis (EDA) & used Seaborn & Matplotlib for data visualization in python.
- Exhibited strong curious thinking to improve data parsing workflows, executing independent debugging routines to secure maximum code reliability.

Education & Credentials

Loyola Institute of Business Administration

Post Graduate Diploma in Business Analytics

India
06/2022 – 05/2023

- Focus areas: Quantitative Decision Models, Advanced Relational Databases, Information Architectures and Data Visual Analytics.

Great Lakes Executive Learning

Post Graduate Program in Data Science and Engineering

India
06/2019 – 01/2020

- Focus areas: End-to-end Machine learning projects using Python, SQL Programming, Applied Statistics and Exploratory Trend Modeling.

Gujarat Technological University

Master of Business Administration (MBA)

India
06/2017 – 05/2019

- Focus areas: Corporate Administration, Applied Market Research Engineering, and Cross-Functional Stakeholder Communication.

Gujarat Technological University

Bachelor of Engineering (B.E.) in Automobile Technology

India
06/2013 – 05/2017

- Grounded foundational systems thinking, structured process troubleshooting models, and a highly meticulous engineering documentation mindset.
